To Whom It May Concern:

As regards ShidduchVision-videoconferencing:

ShidduchVision was created to facilitate dates between people who may be in a different city, to save the cost, time and need to travel.

They can meet from different cities or even countries for the first few times; if it's on target they can continue in person.

I think that this will greatly assist people in Shidduchim and I lend my full support to this program.

Hatzlocha,

Shlomo Lewenstein
